

Sadia

I'm embarking on an exciting adventure to become a proficient Data Analyst, driven by a strong desire to improve both my technical and creative abilities in this field. My path has led me through the fundamentals of Python, SQL, Power BI, and spreadsheet manipulation.

My dedication extends beyond simply learning to obtaining an intuitive understanding of the complex structures in data and exposing the narratives they convey. I'm developing a unique set of abilities with Python, SQL, and visualization tools that will enable me to identify relevant insights in complex datasets.

Skills

- SQL
- Python
- Spreadsheet / Excel
- R (programming language)
- Power Bi
- Data Visualization
- Communication Skill

Work history

[TATA Internship](#) – 2022

Data Visualization: Empowering Business with Effective Insights
Forge

- Framing the Business Scenario
- Choosing the right visuals
- Creating effective visuals
- Communicating insights and Analysis

[PwC Internship](#) _2023
